EARTHQUAKE ON THE COAST.

SEVERAL SHOCKS IN CALIFORNIA.

MUCH DAMAGE DONE.

Many Thousands of Dollars Damage Done—Every Brick Building in Hollister Suffers—Houses Cracked and Plate Glass Windows Badly Shattered—General All Over the State.

HOLLISTER, Cal., June 21.—Shortly after noon yesterday the most severe earthquake shock since 1868 did many thousands of dollars damage to buildings and their contents. No casualties occurred, though several narrow escapes are recorded. Every brick building in town has suffered, and in the court house the walls and ceiling have lost most of their plastering. Immediately after the earthquake, a fire bell of the McManis house fell upon the adjoining buildings. Hundreds of window panes were cracked or broken and in some instances entire window sashes were thrown into the street from the second story of the building.

GILROY, Cal., June 21.—The heaviest earthquake ever felt here lasted only a few seconds yesterday but did much damage. Numerous chimneys were toppled over, house walls cracked, every plate glass store window shattered and a general wreckage of bottles and shelf ware in houses and stores. People rushed out of their homes thinking the last trumpet had sounded in earnest. In some houses blinds were wrenched from the hinges and an unusual scene of petty destruction is presented in nearly every house and store in town.

SAN FRANCISCO, June 21.—Two sharp shocks of earthquake were felt here yesterday, the official time of the first, as taken by United States weather bureau, being 12:14:04. It was followed almost immediately by a second shock. The vibrations were from west to east. Clocks were stopped, suspended lamps and decorations were broken in places, but no real damage is reported. The shocks were the most severe experienced here for many years. The earthquake was general throughout the state.

MISSOURI EDITORS.

"The Organization of Democratic Editors of Missouri" Formed.

St. Louis, Mo., June 21.—An association to be known as "The Organization of Democratic Editors in Missouri," was formed at the Laclede hotel Saturday night. The objects of the association are stated in the following preamble to a resolution:

"Realizing the importance of organization, we, the Democratic editors of Missouri, hereby organize ourselves into a permanent organization for the purpose of more forcibly presenting the principles of Democracy in the Chicago platform, and for the better co-operation with the various committees throughout the state—especially the State Club association, which has for its object the organization of all metallic leagues throughout the state."

TWENTY STEERS KILLED.

Struck by Lightning as They Stood Alongside a Barbed Wire Fence.

NEVADA, Mo., June 21.—During a terrific rain storm here last night lightning killed twenty head of fat cattle belonging to W. D. Bailey of this city. They were standing alongside a barbed wire fence. The animals were worth \$1,500 and were insured for \$800.

Died to Avoid Creditors.

CLINTON, Mo., June 21.—Impatient creditors caused A. H. Bechtel of Hickory county to hang himself yesterday morning. One week ago Bechtel traded a farm for J. A. Baker's general store in Levery City, St. Clair county. The stock involved \$7,100 more than the farm and Bechtel could not raise the money. Meanwhile men whom he owed became impatient and harassed Bechtel with threats of attachment suits.

Shook Up by a Cyclone.

DUNCAN, Neb., June 21.—A cyclone of destructive proportions passed over Duncan yesterday and shook up the place to an alarming extent. A number of people were hurt by flying debris. The tornado struck the farm of John Eisenman, seven miles northwest of Duncan. All his buildings, including a store and a half house, stable, windmill and granary full of grain, were completely demolished.

Pennsylvania Has a Deficit.

HARRISBURG, Pa., June 21.—Deputy Attorney General Ekin gave out a statement last night on the condition of the state finances, in which he shows that there is a deficit of \$3,500,000 in the state treasury.

Glass Factory Burned.

MEXICO, Ind., June 21.—The window glass factory at Orates, eighteen miles west of Mexico, burned last night. The factory employed 100 men and the loss is \$50,000. The town has no fire protection.

A Postal Inventor at Rest.

NEW YORK, June 21.—James Taylor, assistant postmaster of New York since 1860, died suddenly at his home last evening, aged 70. He devised the "registered package envelope," still in use, which has been the means of saving millions of dollars to the public.

VEST CARRIES A MOTION.

Senate Finance Committee Defeated for the First Time.

WASHINGTON, June 21.—Saturday was rendered noteworthy in the Senate by the defeat of the finance committee on four important paragraphs in the tax, hemp and jute schedule of the tariff bill. Those were the paragraphs relating to floor matting, plain jute fabrics, burlaps and cotton bagging. The Democrats were enabled to carry their points against these paragraphs by the assistance of the silver Republicans and Populists, and by the help of Messrs. Carter and Hansbrough, straight Republicans, in the paragraph relating to matting. It was the first vote during the consideration of the bill in which any Republican had broken away from the party. The effect of the vote is to restore floor matting manufactured from straw and other vegetable substances, and also jute fabrics, burlaps and cotton bagging to the free list, including the Japanese, Chinese and Indian matting.

DENOUNCED AS A GAMBLER

Herman Warsawiak Suspended From the Presbyterian Church.

NEW YORK, June 21.—Herman Warsawiak, a Christianized Bohemian who has been seeking admission into the Presbyterian church as a minister, and who, for a long time, had the support of Rev. Dr. John Hall, of the Fifth Avenue Presbyterian church, was publicly denounced before the congregation of that church as an immoral person and guilty of gambling. He was also suspended from the communion of the church. When the judgment was read to the fashionable congregation, Mrs. Warsawiak, who was present, arose and announced in a loud voice that her husband was innocent. She was put out of the church, while the pastor announced a hymn to quiet the congregation.

Hattieson, president of the Chicago Sugar Refining company, is supposed to be the prime mover in the new trust. With but two exceptions every big glucose company in the United States is said to be included in the combine.

QUEEN'S JUBILEE BEGUN.

ACCESSION DAY OBSERVED IN LONDON.

THE RELIGIOUS SERVICES.

Queen Begins the Day With Prayers at the Grave of Her Husband—Both Houses of Parliament Observe the Day—All Classes Except the Irish Are Represented.

LONDON, June 21.—Queen Victoria began the celebration of her jubilee yesterday, as was befitting her entire career, before the altar of her faith. Throughout London, the United Kingdom and the Empire, in every cathedral, church or chapel of the established church of England were held services similar to those at St. George's chapel, Windsor, where her majesty paid her devotions and offered solemn thanks to God.

The announcement that the services at St. George's chapel would be private and for the members of the royal family prevented the gathering of a large crowd. The scene was most impressive and the services very simple. Her majesty sat in the chair of state immediately in front of the communion rail and just beside the brass plate whose inscription designates the spot which was the temporary place of interment of the Prince Consort.

The ladies and gentlemen who are the grand officers of the Queen's household entered first, followed by the military knights of Windsor in full costume of cooked hats and scarlet coats. The Duke of Devonshire and Lord Rosebery occupied the stalls as knights of the Garter, the rest of the church was empty, the seats of the royal family being near the Queen's. The Dean of Windsor, wearing the insignia of chaplain of the Order of the Garter, officiated, assisted by the Lord Bishop of Exeter and several canons.

Particularly at 11 o'clock, amid the soft strains of an organ voluntary, the queen arrived from the cloisters at the entrance. Assisted by her Indian attendant, she walked slowly to the chair of state, the congregation standing. She was dressed all in black, except for a white tuff in her bonnet. Dowager Empress Frederick of Germany, attired in deep black, took the seat at the right of the queen, while the Duke of Connaught, wearing his Windsor uniform, seated himself at her left. The others grouped closely behind and looked very like a simple family of worshippers. Among them were the Duchess of Connaught, Prince Henry of Prussia and Princess Christian, Prince Christian and Princess Christian with their children, Princess Henry of Battenberg, the Grand Duke Sergius and the Grand Duchess.

Ordinary morning prayers began with a short exhortation from I Timothy. After the first collect a special collect was read, and instead of the usual prayer for the Queen and royal family, two special prayers were substituted. A special prayer for unity was said, and there were special psalms and gospels used instead of those for the day. There was no sermon, but a special hymn written by the Rt. Rev. William Walsham, Lord Bishop of Wakefield, with music by Sir Arthur Sullivan, was sung at her majesty's request.

The choir of St. George's chapel rendered the musical portion of the service, Sir Walter Parratt presiding at the organ. The service lasted forty minutes, the queen remaining seated throughout and following closely the special prayers and hymns. At the end there was a pause. The queen, with bowed head, continued in silent prayer. Then followed a touching scene, which will ever linger in the memory of those who witnessed it. Summoning Empress Frederick, who bowed low at her side, the queen kissed her on both cheeks. The Duke of Connaught and the others of the family followed, receiving on bended knee a similar token of affection. In many cases the recipient was kissed several times. The queen was deeply moved and tears rolled down her cheeks. At last, and evidently with great reluctance, she beckoned her Indian attendant, and leaning on her arm, passed slowly out of the chapel.

There were two services at St. Paul's cathedral, at 11 a. m. and 3 p. m. Immense crowds filled all the approaches to the cathedral at the morning service, anxious to catch a glimpse of the royal and distinguished personages who were announced, including all the Protestant envoys.

The members of the Commons, who, in accordance with a special resolution adopted last Thursday, attended the services as St. Margaret's. All parties were represented except the Irish.

High mass at the Brompton Oratory was made the occasion of a thanksgiving for the Queen's jubilee on the part of her Roman Catholic subjects, a special Te Deum being sung. Mr. Stoner, the Pope's envoy, officiated at high mass. At the close of mass Cardinal Vaughan read a jubilee pastoral, eloquently reviewing the history of the Queen's reign and commending her virtues, after which he extended the Te Deum and gave the pontifical blessing.

All the envoys from Catholic countries were present, in full uniform, except the Prince and Princess of Naples, who were absent owing to the presence of the papal envoy. Wilfred Laurier and the Roman Catholic peers were present.

MAY LOSE A MILLION.

Andrews Incurs Rockefeller's Displeasure by Preaching Free Silver.

PROVIDENCE, R. I., June 21.—When President E. Benjamin Andrews of Brown university comes here from his year's sojourn in Europe he will be called to account by the trustees because of his free silver views. The reason for the action of the trustees at this time is probably to be found in the report that President Andrews has incurred the displeasure of John D. Rockefeller, who was on the point of giving the college \$1,000,000 or so.

It is said President Andrews appeared in New York and delivered an address to a sort of socialistic gathering just as Rockefeller was thinking of a generous gift to Brown.

IS TO BE REVIVED.

Another Attempt at an Arbitration Agreement.

WASHINGTON, June 21.—President McKinley has determined to revive the abandoned treaty of general arbitration between the United States and Great Britain. A new treaty already has been drafted to serve as the basis of negotiations expected to result in the submission of a convention to the senate to replace that which only failed in the early hours of the present session.

In the draft which is to be used as a basis of negotiations, there are none of the objectionable points which caused the failure of the Olney treaty. It is not in contemplation that the treaty will be submitted to the senate before next December.

For years he spent much of his time laboring in the interest of the college. He was a native of Frankfort, Ky., having been born there in 1825. He came to Missouri when 13 years of age.

St. Louis, Mo., June 21.—The St. Louis pool rooms, which for the last six months have enjoyed entire immunity from police interference, were closed today by the operation of the Missouri breeders' law, which went into effect at sunrise. All other pool rooms are closed.

ROYAL BAKING POWDER
Absolutely Pure

Celebrated for its unrivaled strength and reliability. Assures the food against all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

Goodrich Named as Agent.

WASHINGTON, June 21.—The commission of P. C. Goodrich as special agent of the land department has probably reached him by this time. This is not a presidential office. It comes through Commissioner Herman, though the commission has to have the signature of Secretary Bliss, who signs on Herman's recommendation. The job pays \$1,200 a year and expenses.

Goodrich was in 1888 elected to congress from a Florida district. He was then worth \$30,000 or \$40,000. He spent most of this in the contest for the seat and was finally knocked out by a Democratic congress. He has many friends here among senators and congressmen, who gave him strong endorsements, representing that he had spent his money in this contest, was now a city councilman in Oklahoma, but poor and deserving. He had but two endorsements of consequence from Oklahoma, Seymour Price and O. A. Mitscher, who voted for McKinley at St. Louis. Goodrich was known by Herman to have been a strong Flynn man. He made a still hunt, very few of the many Oklahoma people here in the last two months knowing he had made an application.

TERRITORIAL PATRONAGE.

Cy Leland, the Kansas Boss, Beats Clayton.

Special to Daily Leader.

TOWNSHIP, Kas., June 21.—Kansas politicians tell a story of the wrestling by Cyrus Leland of the federal patronage of the Indian Territory from Powell Clayton. For a generation or more Clayton has distributed the offices of the territory, but during the McKinley administration Leland's indorsement will be necessary.

When Mr. McKinley was inaugurated Leland set up a claim to the patronage of the territory. Clayton disputed his right and claimed it as his own by right of discovery. But Leland insisted, and finally succeeded in securing Clayton's consent to the appointment of Piny Soper to be United States District Attorney for the northern district. Leland in turn consenting to the appointment of Clayton's brother to be judge of the central district.

Then came the United States marshal for the northern district. Leland wanted Grady, a citizen of Arkansas, to be appointed, and Clayton wanted another Arkansas man. Neither would yield and finally President McKinley sent for them. He said to them that two men who had been friends so long and so long members of the national committee should not let a question of patronage cause a breach between them and that, since they were his personal friends, he should insist upon an understanding between them as to the territorial patronage.

Leland proposed that the appointments should be left to the territorial committee, each to name his man, and the committee to decide. He was sure that he had a majority of the committee. So was Clayton.

A test was made on the marshalship. The committee supported Leland's man, Grady. Clayton indorsed Grady and went off to his mission in Mexico, leaving Leland in control.

While Leland has these offices to bestow, his Kansas friends will get a few of them. His bargain with the committee is that, with the exception of two remaining judgeships, the offices are to be given to residents of the territory. One of the judgeships will be given to Joseph Gill, of Colby, Kas., and the other probably will be given to some Missourian to be selected by R. C. Kerens.

The territory is rich in federal offices, especially since the creation of the two new judicial districts by congress in 1895. That act provides for three judges at \$5,000 a year each; three United States district attorneys at \$1,000, three assistant attorneys at \$2,500; three United States marshals at \$4,000; twelve deputy marshals at \$1,200; three court clerks at \$1,200; eighteen United States constables at \$600; total, \$125,100.
